

Travel with light, space and visible motion

ELEVTECH SYSTEMS

**ELEVTECH SYSTEMS**

## Company Profile

*ELEVTECH SYSTEMS*, Suppliers of lift and elevator solutions to business and institutions throughout South India. *ELEVTECH SYSTEMS* can supply and install all lift types from 50kg service lift through to 15 ton goods lifts.

As we are independent from any one supplier we are therefore able to meet with all our clients' requirements and budgets without compromising quality. *ELEVTECH SYSTEMS* Services will plan from initial consultation through to installation completion and maintenance, allowing the customer the correct complete package from day one.

We supply and install lifts, Service Lifts, Goods Passenger Lifts, Hydraulic Residential Lift, Material Lifts, Dumbwaiters, Non-Commercial Vehicle Lifts, Scissors platforms and platform Elevators throughout South India.

*ELEVTECH SYSTEMS* established in 2010. Directors recognized that there was a lack of service being offered to customers and there was an opportunity for a customer focused company to provide service and repairs to potential clients's. The company will always recognize the importance of the client's requirements, from small repairs through to major modernization, and to this end we endeavor to maintain a close working partnership with all our customers.

*ELEVTECH SYSTEMS* offers all aspects of service within the lift industry providing installation of complete new lifts and modernization of older lifts where working within properties when still occupied and working with programs to suit the property environment. Some refurbishments will require complete removal of the existing lift and installation of a new type of lift.

***ELEVTECH* ELEVATOR COMPONENTS INTEGRATE SAFETY, EXCELLENCE  
IN DESIGN, PERFORMANCE, RELIABILITY AND ELEGANCE.**
